

## WHO IS MN MILK?

Since 1977, Minnesota Milk Producers Association has been the grassroots organization for Minnesota's dairy industry. Our strength comes from members working together and focusing on three key areas:

### 1. Policy

Taking timely action to support or oppose issues impacting our members.

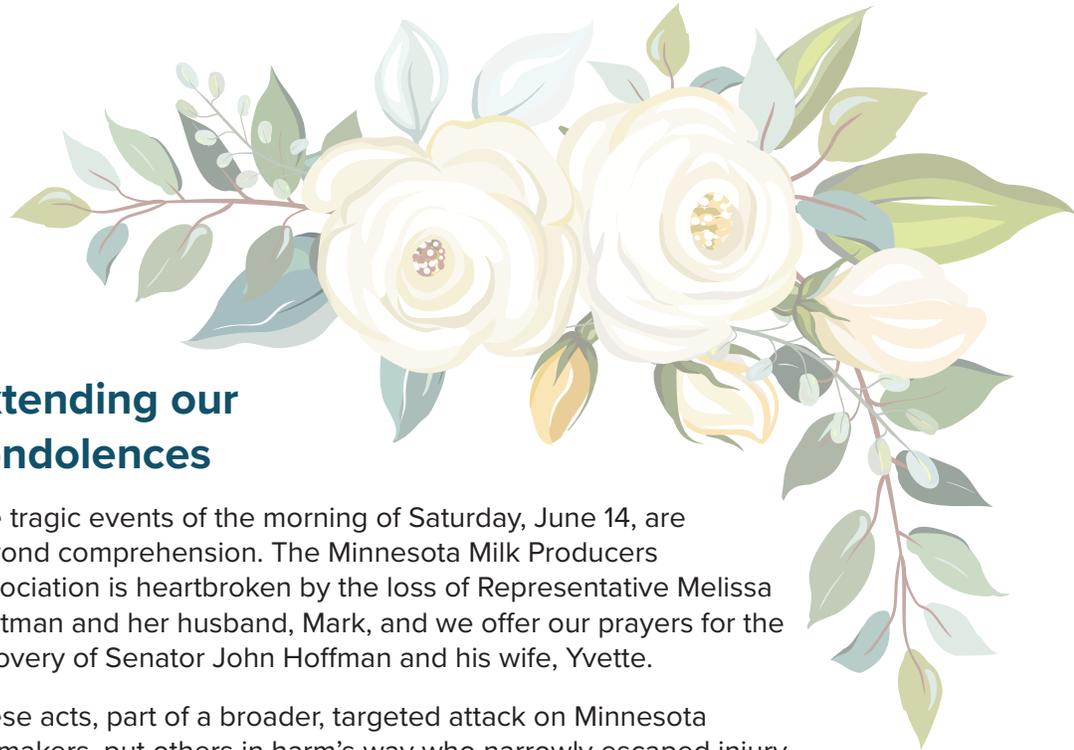

### 2. Engagement

Providing programs that further the professional goals of our members.

### 3. Membership

Creating more opportunities for our members to prosper.

## Extending our condolences

The tragic events of the morning of Saturday, June 14, are beyond comprehension. The Minnesota Milk Producers Association is heartbroken by the loss of Representative Melissa Hortman and her husband, Mark, and we offer our prayers for the recovery of Senator John Hoffman and his wife, Yvette.

These acts, part of a broader, targeted attack on Minnesota lawmakers, put others in harm's way who narrowly escaped injury, including one whose life may have been saved by a nearby law enforcement officer. It is chilling to consider how much worse this day could have been.

*We extend our deepest condolences to all affected by this senseless violence.*

Our team had the privilege of working with Representative Hortman. She was an honest, capable, and thoughtful leader who embodied what is good about Minnesota. Her loss and the trauma of these coordinated acts are felt deeply throughout our state.

We are thinking of you all during this difficult time and understand that the magnitude of these events affects not only those involved but everyone in our communities and throughout our state. Political violence has no place in Minnesota or anywhere.

At a time like this, we must come together to support one another, honor those who serve and recommit to building a future rooted in respect, service and shared purpose. Together, let's engage in open dialogues, promote inclusivity and strive for solutions that bridge divides rather than deepen them.
